

## I. Technical Requirements

- Windows 98/2000/ME/XP/Vista
- 800 MHz CPU
- 128 MB RAM
- 16 MB video card

## II. Required Software

- Java Runtime Environment (JRE) 5.0 or later version (<http://java.sun.com/javase/downloads/index.jsp>)
- DirectX 9.0c or later (<http://www.microsoft.com/windows/directx/default.msp>)

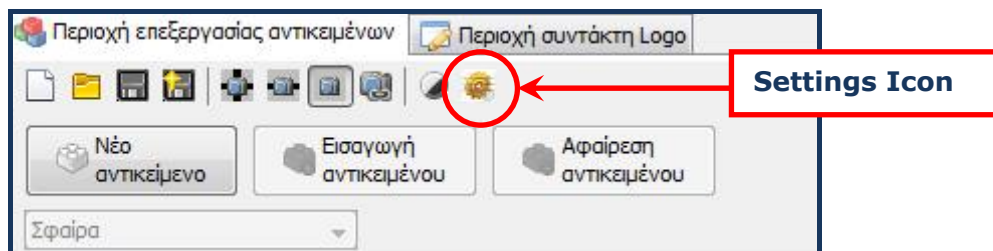

## III. Run MaLT

The MaLT environment does not require installation. Just save the downloaded zip file to your disc, unzip it in a folder and double click on the “**run.bat**” file.

## IV. Language Options

The MaLT environment runs in English and Greek. To run MaLT in **English**:

1. Click on the “**run.bat**” file so as to open the application in Greek.
2. Go to the **Menu Bar** in the **first tab** and locate the icon that looks like a **gear** – it’s the **last icon** on the bar.

3. Clicking on it, a **Settings** window will appear.

4. Choose **English (American)** (Select the option next to the **American flag**) and Press .
5. **Restart** the application and the MaLT environment will open up **in English**.
6. Revisit the **Settings** window if you wish to make any further changes.
