

## I. Installation Instructions

The MoPiX 2.0 environment is completely web-based and requires no installation. It works in Internet Explorer, Safari, Opera, and Chrome. The current release is not completely compatible with Mozilla FireFox.

- To begin a new session in MoPiX v.2 use the URL:

- To restore the last session use the URL:  
<http://modelling4all.nsms.ox.ac.uk/ModelOldVersion/?MoPiX=1>

**Note:** If you experience any problems saving or loading your models, you may use the MathML button situated on the “Stage” tab. It allows you to save your models as a text file (e.g. a \*.txt file) and restore them via copy - paste.
